

## LET'S MAKE FLIGHT SCHOOL

## You will need:

- Cardboard
- Paint
- Scissors
- Marker pen
- Coloured paper

## Instructions:

- Cut your piece of cardboard to the desired size – we would recommend 1189mm x 841mm.
- 2. Paint one side of your piece of cardboard to a colour of your choice and leave to dry.
- 3. In the meantime, using your coloured paper, cut out the letters 'Flight School'.
- 4. Once your cardboard is dry, stick your 'Flight School' letters to the top.
- Now you can cut out 3 holes, varying in sizes – make sure the smallest one is still big enough to fit a paper aeroplane through! Don't forget to add the number of points each hole is worth by the side!

- Prop your board up using some books or plant pots – you are now ready for take-off! Don't forgot to make your paper aeroplane – why not add some colour and design to it!
- Why not create a leader board and see who in your family can get the highest score!
